

# Cato Cannizzo

---

<UX Designer>

## ✓ EXPERIENCE

---

### Nabors Industries

Data Scientist | 2022 - 2023

Created a MySQL database for characterization of a novel material.

Analyzed production variables' effect on material using orthogonal arrays.

Created webapps to quickly record and view status of production tests.

Streamlined flow of existing webapps to reduce time to complete.

### GetGreen

Capstone Project | 2021 - 2022

Ran a diary study to measure users' long term painpoints and retention.

Ideated multiple wireframes in figma for stakeholder and users to evaluate.

Conducted usability tests to identify which changes addressed painpoints.

### Center for an Informed Public

Student Researcher | 2022

Designed a confluence user interface for working with misinformation.

Developed coding methods and a wireframe for storing misinformation.

Clearly communicated complex design requirements among stakeholders.
